Subject: Microsoft Settlement

To Whom It May Concern,

I would like to point out briefly that my e-business, Artsonia.com, runs largely on the Windows platform. We do a great deal of scripting and automation in the course of running an online museum and custom production workshop. We would benefit greatly if Microsoft software interoperated better with software from other developers.

We believe that the proposed settlement does not do enough to ensure this.

Sincerely,

Brandon Harvey
Program Director
Artsonia
